

ring  
Stick Up Cam

Setup and  
Installation Guide

## Step 1

Download the Ring App

The Ring app will walk you through setting up and managing your Stick Up Cam.

The Ring app is available for iPhone, iPad, Mac Desktop, Android, and Windows 10.

Search for "Ring" in one of the app stores above, or visit: [ring.com/app](http://ring.com/app)

 We have an online guide with videos and tutorials at: [ring.com/setup](http://ring.com/setup)

2

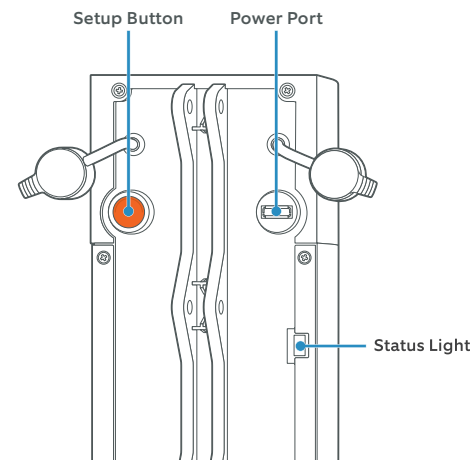

## Step 2

Meet the Back of your Stick Up Cam

**Setup Button** – You'll be instructed to push this during the in-app setup.

**Power Port** – If running off battery, charge Stick Up Cam fully before installation by plugging the orange cable in here.

**Status Light** – This light will pulse when your Stick Up Cam is in setup mode.

3

## Step 3

Perform the In-App Setup

Select the plus sign in the Ring app to set up a new device.

When prompted, select **Stick Up Cam**.

## Step 4

Test the Video Quality

Before mounting your Stick Up Cam let's run a quick test. Double press the orange button. This will send an alert to your mobile device.

## Step 5

Select the Mount You'd Like to Use

You have two mounts to choose from.

There's the **Quick Release Mount** and the **Security Mount**.

4

## Step 6

Remove the Swivel Arm from the Security Mount

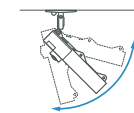

A) Loosen the bolt on the side.

B) Remove the bolt completely to set the swivel arm free and set this screw aside for now.

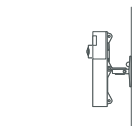

## Step 7

Select the Mounting Point You'd Like to Use

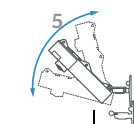

**THE TOP MOUNTING POINT** is great for installing Stick UpCam on a ceiling.

**THE MIDDLE MOUNTING POINT** is great for installing Stick Up Cam on a wall.

**THE BOTTOM MOUNTING POINT** is great for installing Stick Up Cam high on a wall, or placing it on a table.

## Step 8

Attach the Swivel Arm to your Stick Up Cam

Use the provided bolt to attach the swivel arm to the mounting point you selected in the previous step.

## Step 9

Install the Mount

Take everything to where you'll be installing your Stick Up Cam.

If you're installing on **stucco, brick** or **concrete**, use the quick release mount as a template to mark the location of 4 holes that you'll drill in the next step.

On **stucco, brick, or concrete** use the provided drill bit to drill the 4 holes that you marked in the previous step.

Then insert the wall anchors.

On **wood or siding**, skip this part, and screw the bracket directly into your wall.

Use the Phillips head side of the Ring screwdriver and the provided screws to screw in the bracket you selected in **step 5**.

6

## Step 10

Attach Your Stick Up Cam to the Security Mount

Use the bolt you set aside in **step 6** to attach the camera to the security mount.

## Step 11 (if using the quick release mount)

Snap Your Stick Up Cam into the Quick Release Mount

Push gently down on the tab and snap your Stick Up Cam into place.
